

LAvHAIR

LAvRECOVERY

HAIR RESTORATION AT THE MOLECULAR LEVEL LAvRECOVERY

Duration: 90 mins

THE PREPARATORY STAGE: HAIR DIAGNOSTICS/CLEANSING

Apply a small amount of LAvHAIR AminoCleanse Shampoo/RepairPro Shampoo/ChromaCare Shampoo to damp hair and scalp. Wash with shampoo twice. Rinse thoroughly with water.

STEP 1: ACTIVE MOISTURISING AND RESTORATION OF HAIR PROTEIN STRUCTURE

On towel-dried hair, apply LAvRECOVERY Repair Hair Spray in strands along the entire length, leaving 2 cm from the root zone. Leave for 7-10 minutes under a heat source (climazone, thermal hat), do not rinse.

STEP 2: HAIR THICKENING UP TO 40%

Without rinsing off Step 1, apply LAvRECOVERY Repair Hair Mask evenly along the entire length of the hair, comb through well and leave under a heat source for 10 minutes. Let hair cool, then rinse thoroughly with water (preferably cool).

STEP 3: RESTORATION OF DISULFIDE BONDS

Apply a small amount of LAvRECOVERY Repair Hair Fluid to clean, gently towel-dried hair, distributing evenly along the entire length. Do not rinse off. Start styling with a hairdryer.

Main components: SH-OLIGOPEPTIDE-78.

THE FINAL STAGE: FINISH GLOW

Apply a small amount of LAvHAIR VelvetGlow oil fluid after Repair Hair Fluid and start styling hair, or apply if necessary to dry hair after blow-drying.

Main components:
Argan, Jojoba, Marula Oils and Phytosqualane.

LAvHAIR

LAvHAIR Spa Treatment

SCALP CARE AND HAIR RESTORATION BY LENGTH

Duration: 90 mins

STEP 1:

Apply **DermiPeel** soft peeling immediately to dry scalp and partings. Massage for up to 10 minutes.

Main components: Glycolic Acid, Salicylic Acid, Lactic Acid, Hamamelis Extract, Aloe Extract, Achillea Millefolium Extract, Niacinamide, Menthol, Allantoin, Tocopherol.

STEP 2:

Wash off the peeling with AminoCleanse shampoo if the scalp is oily, or with RepairPro shampoo if it is prone to dryness. Rinse twice.

AminoCleanse Main components: PRODEW® 500, Witch Hazel Extract, Betaine.

RepairPro Main components: TEQACTIVE (HaB)3+C.

STEP 3:

Apply the **RepairPro mask** to towel-dried hair and distribute it evenly along the length. Leave for 10 minutes under a heat source (climazone), rinse thoroughly with water.

Main components: CERAMIDE A2, Amino Acid Complex, Monoi and Shea Butter.

STEP 4:

Gently dry hair with a towel, apply **HairBoost** serum to the scalp, partings, and distribute evenly with rubbing massage movements for 5 minutes. Do not rinse.

Main components: Procapil, Niacinamide, Dragon's Blood, Menthol, Panthenol, Apigenin, Oleanolic acid.

STEP 5:

Apply **HydraMist** spray and distribute along the length.

Main components: HELIOGENOL™.

STEP 6:

Apply **Glossify** cream fluid, distribute evenly along the length, paying careful attention to the hair ends.

Main components: HELIOGENOL™ and ELAYA RENOVAT™.

STEP 7:

Apply a small amount of **VelvetGlow** oil fluid after using **Glossify** cream fluid, or apply if necessary to dry hair after blow-drying.

Main components: Phytosqualane, Marula, Argan and Jojoba Oils, Tocopheryl Acetate.

LAvHAIR
